and contracts
(contracts and works)

Magazine ranking

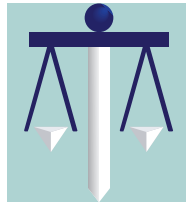

Alchimie Avocats (formerly Moureu associés) is a law firm specialising in risk prevention and management, as well as litigation, and has a long-standing reputation as a leading legal practice in the fields of industry, insurance, construction and public works, services companies, healthcare, regulated professions, and the environment.

Founded in 1980, the firm has always favoured a personal and long-term approach to its client relationships, combined with a flexible and complementary organisation, for the benefit of its clients.

PRACTICE AREAS

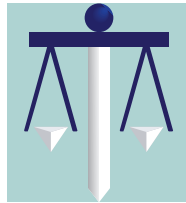

We provide litigation and legal advisory services in the following areas: *(including regulatory analysis, risk analysis, judicial assessments, complex litigation, serial litigation, collective accidents)*

- Public, administrative, criminal, and disciplinary liability law, including product liability and regulated professions
- Personal injury law, including breach of safety and protection in labour law
- Insurance and reinsurance law
- Industrial risk law
- Construction law: liability of participants in the construction process and manufacturers of construction materials
- Life sciences and healthcare law: regulations applicable to health products, activities, and professionals, including health data, vigilance, and product safety
- Environmental law: soil, water and air pollution, facilities classified for environmental protection (ICPE), abnormal neighbourhood disturbances, environmental criminal law, regulations
- Public law, administrative litigation, public procurement procedures
- Commercial, contracts and obligations law
- Special criminal law
- Arbitration and mediation

SECTORS OF ACTIVITY

Our clients' sectors of activity are varied, as are the types of cases we manage:

- Building and civil engineering
- Engineering and industrial maintenance
- Energy and environment
- Agri-food, food and veterinary
- Health products and healthcare activities
- Cosmetics
- Defence, security
- Fire
- Machines and engines
- Metallurgy and mechanics
- Property and construction
- Regulated professions
- Sports and leisure

OUR VALUES

Technical sensitivity, strategy, and result orientation

We cultivate an excellent operational knowledge of our clients' business and its specific features. This enables us to understand the strategic issues of the matters we handle and to propose tailor-made solutions, relying on our proficiency in procedural knowledge, contractual technique, negotiation, and alternative dispute resolution. We are committed to providing our clients with a personalised and resolutely business-oriented approach.

Intuitu personae, passion, and commitment

We build a lasting relationship of trust with our clients, whom we defend with an assertive, loyal, and proactive approach. We guarantee responsiveness, transparency, and availability in the management of their files.

Teamwork and expertise

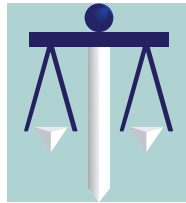

We are a strong and forward-looking team, based on trust, friendliness, and cohesion between the partners and towards the members of the firm. We have developed specialised and complementary skills. Each partner is personally involved in managing the files and monitors them on a daily basis.

An efficient and environmentally friendly working tool

We have put in place an efficient and committed organisation within an entirely mobile working environment. The files are fully digitised, accessible 24/7 with personal and secure access, on a professional computer and a dedicated smartphone app.

Transparency of fees

Our fees are agreed upon with the client and take into account the specific features of the case, in accordance with professional practices and in compliance with our ethical rules.

INTERNATIONAL

The firm advises and assists its clients on international and/or transnational issues and disputes, by having a firm grasp of the issues of private international law.

It has a network of preferred foreign contacts that it can instruct according to the requirements of the cases.

Since 2000, we have been the exclusive representative in France of the EUROPEAN LAW FIRM network (ELF www.european-law-firm.com).

Established in 1989 to meet the growing demand for legal advice across Europe, ELF was the first legal network to register in Brussels as an EEIG.

It currently includes 27 countries, each represented by a single, recognised, long-established law firm, chosen for its expertise and proven experience, particularly in cross-border transactions.

The network enables its members to maintain close and lasting relationships with each other, by fostering immediate and targeted relationships for the benefit of their respective clients.

Xavier Lebrasseur is the coordinator and contact person for the network within the firm.

We are referenced in health law, insurance law and civil law within the International Association of Lawyers ("UIA").

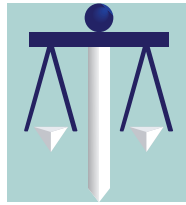

Founded in 1927, the International Association of Lawyers is an international organisation of multi-lingual and multicultural lawyers with members in 100 countries.

Mathilde Merckx is the contact person for the International Association of Lawyers within the firm.

LANGUAGES

Besides French, we work in the following languages:

English / Spanish / German
Arabic / Italian
